

CROSSLAND GROOMING

SUPPORT SERVICES

As Groomers we know only too well how difficult it is to find a reputable company you can trust to look after your scissors and blades. They are the main tools for your trade and it's important they receive the correct sharpening.

Here at Crossland Grooming Support Services we give your scissors and blades the care and attention they need and deserve.

Scissors we receive will have the following work carried out on them:

- Strip down, inspection and clean,
- Angle setting and adjustment,
- Re-sharpen and polish,
- Convexing (as required),
- Re-building with new parts (as required),
- Balancing and adjustment,
- Setting and testing.

Sharpening can either lengthen or shorten the life of scissors. An incorrect sharpening such as applying a bevelled edge on a convex blade, removing an excess amount of metal or overheating and burning tips can reduce the life of your scissors even ruining them.

We at Crossland Grooming Support Services use a Scimech Scissor Flathone machine for sharpening scissors and not a grinding machine.

This machine has been specially designed to remove the minimum amount of metal, minimise heat created whilst sharpening thus resulting in a perfectly sharpened pair of scissors.

Blades will have the following work carried out on them:

- Strip down, inspection and clean,
- Resharpen,
- Re-building, new parts fitted (as required),
- Setting and adjustment.

We at Crossland Grooming Support Services use a Scimech II Clipper Hone for sharpening blades which is a true hollow ground blade sharpener.

It is important to have the correct equipment to carry out the job of scissor and blade sharpening and crucially important to have the correct training.

We at Crossland Grooming Support Services have the correct machinery and have also had extensive training by leading experts in the field of scissor and blade sharpening. We are committed to supporting your business and as we are a mobile sharpening unit we can do just that.

The cost of sharpening is:

£7 per pair of scissors/thinners and **£6** per blade.

Scissors and blades can also be posted to us. Normal postage charges apply.

When posting scissors and blades complete the following:-

- Wrap and protect your scissors and blades,
- Include your name, address and telephone number,
- Include payment, cheques made payable to Crossland Grooming Support Services.

Most sharpening work is completed within two working days and for busy periods please allow three working days.

We will be at the Newtownards show on Sunday 29th March 2009 and Belfast Open Show on Easter Tuesday (14th April) so come and see us there and have your blades and scissors sharpened on the day.

If you have any queries please contact us.
